CHAIRMAN, INDIAN AFFAIRS
SUBCOMMITTEE

May 7, 1975

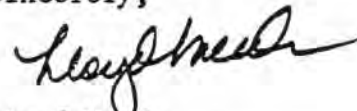

Col. Raymond J. Eineigl
District Engineer
Seattle District, Corps of Engineers
1519 Alaskan Way South
Seattle, Washington 98134

Dear Col. Eineigl:

Enclosed is a letter from the Skagit County Commissioners concerning the Sauk River. Under present schedules it is unlikely that the Congress will get to scenic river classification for the Skagit and tributaries before 1978 or 1979. I would appreciate having your comments on a feasibility study for flood control and as to whether such a study has been done in the past and, if so, what the findings were.

Thank you.

Sincerely,

Lloyd Meeds
Member of Congress

Re: NPSN-PL-BP

Dear Sir:

This reply is to your letter of April 29, 1975 regarding Skagit County's sponsorship of the lower levee project previously approved by Congress. Skagit County is prepared to, and will, assume the local items of sponsorship as provided in your letter under Items a through h. Most of the right-of-way necessary for the reconstruction of the dikes in the lower levee project lies within the boundaries of local diking districts. We hope to secure the right-of-way that is necessary at small cost to the County directly.

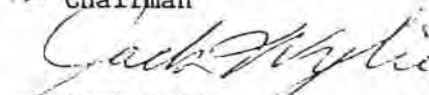

Skagit County does have an established County-Wide Flood Control Zone District which will enable the County to provide financing for its local sponsorship.

We hope that this project might proceed as rapidly as Congress will approve engineering and construction. Skagit County will expect to provide the necessary financing for the sponsorship of the project. We appreciate the renewed effort by the Corps of this project.

Respectfully,

BOARD OF SKAGIT COUNTY COMMISSIONERS

Howard A. Miller
Chairman

Jack Wylie
