

23 August 1978

MEMO FOR: RECORD

SUBJECT: Skagit Levee and Channel - Meeting with local sponsor

On 18 August 1978 Mr. Walt Farrar and I met with Mr. Ray Skrinde and Mr. Don Nelson of Skagit County to discuss progress on our Skagit Levee and Channel Improvement Project. We discussed the status of the Skagit legislation contained in the 1978 Omnibus Bill (bill passed House, Senate added about 60 ammendments, House is now considering these ammendments). We also talked about the problems of Skagit overflow to the Samish, potential levee aline-ments, channel excavation locations and the briefing of the new Skagit County Engineer, Gene Sandley, on 28 August. They would like to have about a 10 minute briefing for Mr. Sandley immediately following their visit to the District Engineer at 11:00 a.m.
