

**We want to hear from you!!**

Please take the time to respond to the questions below. You can provide your comments by:

- ✓ Leaving this form with us today or at Skagit County Public Works
- ✓ Putting a stamp on this form and sending by regular mail
- ✓ Contacting Daniel Johnson at [daniel.e.johnson@usace.army.mil](mailto:daniel.e.johnson@usace.army.mil) or at (206) 764-3423

Which features of the preliminary alternatives do you prefer and why?

We own property on Brunswick near the Bennett / avon allen intersection. The ~~#4~~<sup>#3</sup> proposal definitely looks best to us, using the Joe Reary Slough plan. Our property would be in the flood area if ~~#4~~ plan was followed. We'd like some protection better than the current situation having had to evacuate our building during a flood warning once already. The Tin Island Bypass looks good too

Which features of the preliminary alternatives do you LEAST prefer and why?

The proposed flooding of our property in ~~#4~~ plan

# Skagit River General Investigation Study

Public Outreach on Preliminary Range of Alternatives

April/May 2012

Are there any other issues or concerns that should be considered in the study? Please be specific.

*The present situation which requires evacuation during a flood warning in our location. How about dredging the Skagit channel?*

Do you reside within the Skagit River Basin?  Yes  No

Would you like to be added to the Skagit River General Investigation Study mailing list?  Yes  No

If yes, provide us with your contact information so we can add you to the project mailing list (please print):
