

Skagit River General Investigation Study

Public Review of Draft Feasibility Study and Environmental Impact Statement

June 6 – July 21, 2014

We want to hear from you!!

Please take the time to provide your comments. You can submit your comments by:

- ✓ Leaving this form with us tonight at the public meeting or at Skagit County Public Works Office
- ✓ Putting a stamp on this form and sending by regular mail
- ✓ Contacting Hannah Hadley at Skagit.River@usace.army.mil or at (206) 764-6950

Remarks, Comments, Concerns

I am so oppose to higher dikes,

It will not solve the problem
of flooding if the river is not

dredged. We will not solve the problem

by building higher and higher

dikes. They need to stop clear cut

logging in the area from causing
the sediment to fill up the river.

I am concerned about my safety
and being forced to pay for

federal flood insurance. This is

now in a non flood area, and by

building high dikes there is a very good

possibility it will flood the river's stream

to Concrete WA.

Skagit River General Investigation Study

Public Review of Draft Feasibility Study and Environmental Impact Statement

June 6 – July 21, 2014

Is there anything additional that should be addressed or considered during this study? Please be specific.

River dredging and structures

in the river to control sediment build up.
Clear cut ossing.

Do you reside within the Skagit River Basin? Yes No

Would you like to be added to the Skagit River General Investigation Study mailing list? Yes No

If yes, provide us with your contact information so we can add you to the project mailing list (please print):
