Remarks, Comments, Concerns

concern to me that a project would even be considered? that would only shift the problem from one area to another. I have proven agricultural use the duplex I have in Sedro-Woolley not only be a cost of several thousand dollars per year for flood insurance but it will make it very hard to sell these houses which I intend to do over the next five years. I have invested everything into this project and can not afford to have it ripped from me. These properties were not in the flood plain when purchased and would not have been purchased had I been the  
willing to pay my additional insurance and in valuation? This  
must not go forward as planned.
