Remarks, Comments, Concerns

I've seen the river rise  
to Dunlop St + Township St.  
when it has flooded in the past.

There is a ledge there.

If dikes are put in down river  
to protect other cities from flooding  
Sedro-Woolley will surely flood!

Please reconsider your  
plans and save our city!

Public Review of Draft Feasibility Study and Environmental Impact Statement

June 6 – July 21, 2014

Is there anything additional that should be addressed or considered during this study? Please be specific.

I'm wondering if this will put us  
in the same position as Hamilton with  
floodng concerns
