Remarks, Comments, Concerns

My wife ~~My~~ and I live on No Central in Sedro-Woolley. Our drainage here depends on the height of the Skagit River and Sedro-Woolley's outfall into the river. We have severe water problems as the water table fluctuates with the height of the river at high water times we have no drainage at all! We have lived here for over 28 yrs and have seen the issue worsen as the water backs up we have been forced to purchase flood insurance. If Burlington is allowed to raise more dikes you are allowing us to be flooded. Why do you protect the malls that were built in the flood plain and flood home owners. I am a property owner and my wife and I are behind our Mayor's decision to sue in order to protect our home.
