Remarks, Comments, Concerns

THERE ARE a number of disturbing ideas in this plan. LET me MAKE a note OF JUST a FEW. THANK you. a.) It seems that PRIORITY has been placed on high value properties & corporate locations over and above common private ownership. For example; our FARM has been designed with historical Flood levels in mind. To increase these levels would be devastating to the infrastructure. THIS IS something we can't afford to adjust. b.) To AVOID public & municipal input seems coercive at least and alarming when looking at the bigger picture.

c.) In addition, there are many, many appropriate options for dealing with the Flood issue and we all are affected in one way or another but we should NOT allow political lobby, corporate agenda or government career pressure to come into play. I would hope someone would stand in the gap and advocate for a plan which is of benefit for all.

I appeal to you...
