District Engineer  
U. S. Army Engineer District, Seattle  
Corps of Engineers  
1519 Alaskan Way South  
Seattle, Washington 98134

Attention: Mr. Robert H. Gedney  
Chief, Basin Planning Branch

Dear Sir:

Thank you for your letter of June 21, 1965, regarding flood elevations that might well occur with a 50-year flood on the Skagit River flood plain.

On the basis of your information, we are recommending that the Burlington-Edison School District plan on building their proposed elementary school at an elevation of 25 feet above mean sea level, which will give them a 3-foot safety level above the 50-year flood level.

Your cooperation in this matter is sincerely appreciated.

Respectfully yours,

Department of Conservation

*Walter Bergstrom*

Walter Bergstrom, Engineer  
Division of Flood Control
