SUMMARY OF CONVERSATION

1. Ref. Brooks memo 9 Nov 78 (attached) which says that ag levees will be good for 50 year flood
 2. We mentioned that Dave Hough had previously indicated that Skagit Co did not want high level protection (ie greater than 10-15 year) for ag lands because higher protection would make it more difficult to restruct development of the farm lands.
 3. Paul doesnt see any problem because present county philosophy and actions are strictly in favor of ag preservation. They are enforcing a 30 acre min. subdivision size. Their efforts are not flood related, but based on intention to preserve farmlands.
- ✓ I asked Paul to check with Dave Hough and confirm the county's philosophy
