Wes Edens	FIA	
PERSON CALLED	OFFICE	PHONE NUMBER AND EXTENSION
Gardner		

OUTGOING CALL

PERSON CALLING	OFFICE	PHONE NUMBER AND EXTENSION
PERSON CALLED	ADDRESS	PHONE NUMBER AND EXTENSION

SUMMARY OF CONVERSATION

1. Wes warned that FIA is going to "blast" the EIS, based on EO 11988.
2. Apparently they will be concentrating on the fact that the project will raise the water surface over one foot on unprotected lands; i.e. Nookachamps.
3. They will probably base their objections on Section 3(a) of EO 11988 which says Federal structures must meet Flood Insurance Program standards and criteria.
4. I suggested they go easy, because the project raises the water surface less than one foot higher than FIA standards, and mitigating measures are being taken; i.e. flowage easements.
