WANT SKAGIT POWER AT SAME RATES AS SEATTLE WILL GET

Skagit and Whatcom counties, in which Seattle will get electric power, when the big water power project on the Skagit river is developed, should get power for the same rates as Seattle manufacturers, according to local men. The Commercial club will take the matter up with the local Congressman, and with Secretary Lane. As the source of this power is in the two counties, it is felt that they should not be deprived of the right to use some of it, at the same rate which Seattle will charge to users in that city and district.
